

Endorsements (10/28/19)

	<p>"The church needs to be a credible witness to a world looking for answers, ReWire and its commitment to spiritual formation, provides the tonic required for such a journey."  <b>Dave Hillis</b>, President, Leadership Foundations</p>
	<p>"Having surveyed the landscape of church planting both in the US and globally, I wholeheartedly endorse ReWire as a unique and faithful environment that coaches today's planters with both missional practices and real heart formation."  <b>Hugh Halter</b>, Author, Planter, Consultant to today's missionary movement</p>
	<p>"ReWire wonderfully models Jesus' strategy of life in the Kingdom of God by connecting God's personal invitation to loving intimacy with Him experienced in joining Jesus in His loving ministry to the poor and marginalized. By building spiritual formation/missional communities in local churches, ReWire extends personal transformation throughout the local church and into the community. Powerful!"  <b>Tom Ashbrook</b>, Founder Imago Christi, Author of "Mansions of the Heart" and "Contagious Fire"</p>
	<p>In progress...  <b>Peter Watts</b>          West Region Vice President          World Impact, Inc.</p>
	<p>ReWire is a special place with special people working for the reshaping of Christ's church for mission. Its cohorts shape disciples to live Jesus to a lost and frenzied world. Timely. Radical. Vital. Much needed for our times. I encourage many to go on this life-changing journey.  <b>David Fitch</b>          Northern Seminary          Pastor – Peace of Christ Church Westmont IL          Author <i>Faithful Presence</i></p>
	<p>ReWire is on the leading edge in terms of the development of Protestant missionary orders. The team is composed of reflective practitioners dedicated to cultivating incarnational forms of mission in ways that involve all of God's people. I commend them to you.  <b>Alan Hirsch</b>, author of numerous books on missional Christianity and founder of 100Movements, Forge Mission Training Network, and 5Q Collective</p>
