Preparing for the Future

We are committed to digital equity.

In the heart of Silicon Valley, IRC is connecting hard-to-reach communities with digital access, devices, and literacy. In our response to Covid-19, we are working fast to transition many learning opportunities and program services to remote access opportunities. We aim to ensure thousands of families are not left behind in the digital divide and that they can access all of IRC's critical services online .

"You are not alone.
IRC is here for you"
